Design Examples

Twin Casement
with Fan Lights
and Mullion

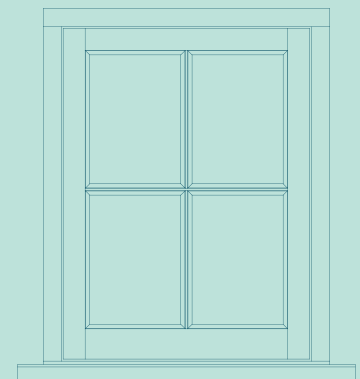

Single Casement

The Heritage Casement Window from our Classic Range is a beautifully crafted, flush-faced timber window that seamlessly blends timeless design with exceptional performance. Whether your property is period, traditional, or bespoke, this window style is designed to complement and enhance a wide range of architectural eras.

Custom-made to your exact specifications, our Heritage Casement Window features 16mm slimline double-glazed units, optional traditional putty-faced detailing, and true glazing bars for an authentic heritage appearance. Engineered for superior thermal insulation, acoustic comfort, and lasting aesthetic appeal, this window brings charm and efficiency together in perfect harmony.

Key Information:

- Can be double (16mm) or single glazed
- Traditional Ovolo, Lamb's Tongue, Angled or Square Moulding options for frame and casement internally
- Lift Off Hinges
- Multi-point lock
- Friction arm to hold the casement in any open position

Finishes & Functionality

Bespoke Details, Designed for Living

We offer a variety of finishes and hardware options to suit your personal taste and the architectural character of your home. Choose from classic stay arms for traditional charm or modern friction hinges for flexible usability perfect for side-hung casements that hold position at any angle.

Glazing Options:

1 Double Glazed
(16mm)

2 Single Glazed
(3mm - 11mm)

*Vacuum Glazing
also available in
this design*

Traditional-style lift-off hinges offer authentic exterior aesthetics with easy access for installation and cleaning.

High-performance multi-point locking systems provide superior security and reliable operation in all weather conditions.

Slim-profile sections preserve the refined look of traditional timber windows while maintaining structural integrity.
